Title of the Challenge

TUM Career App

What is the main issue the challenge addresses?

TUM offers extensive career services to help students start their careers. The aim is to develop an app with a clear to-do list for students for structured career planning and progress tracking.

Call to Action

The Collider students must understand the career entry process and the services available at TUM for this purpose and develop a user-friendly digital solution for TUM students to help them prepare for their career entry.
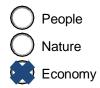

What is the desired impact of the challenge?

Professionalization of the career entry process for TUM students
